Projects

“Wordle Clone”, Web Application, Team Project

April 2022 - June 2022

- Developed with HTML, CSS, and JavaScript with a Python and Flask Restful backend and a MySQL database to facilitate a clean user interface and efficient data processing and retrieval.
- Followed Scrum methodology for effective project management, converting requirements and user stories into testable deliverables through weekly sprints.

“A la Cart”, Web Application, Team Project

January 2022 - March 2022

- Designed a web application for ordering food via pick-up and delivery at a restaurant.
- Utilized Node JS, React and Bootstrap to create a responsive application with a clean layout across all common screen resolutions and intuitive functionality.
- Integrated Stripe API and Email JS to process payment information and confirmation emails while featuring a customer and restaurant platform for processing orders.

Work Experience

Assistant Language Teacher, Wadayama High School, Asago, Japan

August 2021 - December 2021

- Instructed English Language to students, adopted distinct teaching methodologies, and devised comprehensive lessons for different proficiency levels.
- Commended for the creativity of classroom lessons plans and instructional techniques from teachers, parents and management.
- Established and delivered informative, interactive, curriculum-focused lessons designed to foster an interest in the English Language and International Cultures.

General Manager, Boxer Ramen, Portland, OR

August 2018 - March 2020

- Maintained a year-on-year growth rate of 24.07%, increasing yearly revenue from approximately \$2.7 to \$4 million over a two year period.
- Hired and administered training to new staff for both existing and new locations in cooking, serving, and management.
- Developed performance data to evaluate and improve operations, target current business conditions, and forecast needs.
- Effectively managed a team of 35 to 50 employees across five restaurant locations while formulating company policies and best practices regarding leadership, customer service, conflict resolution and documentation.
- Actively monitored consistency in food quality, service, and team performance through quarterly location audits and individual reviews.
